

Anti-Aging Regenerative Medicine

# Put your fat to work

Better healing using your  
body's own fat

## MiniTC®

MiniTC purifies and prepares your body's own fat so your doctor can use it where you need to heal

# MiniTC<sup>®</sup> is Ideal For

Joint Pain Relief

Sprains and Soft Tissue Injuries

Cosmetic Procedures

Reconstructive Procedures

Sports Medicine

Wound Healing

# The Beauty of MiniTC

- Used in many cosmetic, reconstructive, and orthopedic procedures
- Converts your fat to regenerative-cell-rich, purified microfat ready for re-injection
- Done in your doctor's office or clinic - no need for an inconvenient, expensive hospital procedure
- Takes just 30 minutes
- Used by top doctors and clinics

Cleared by the United States  
Food and Drug Administration

## The Beauty of Your Own Fat Cells

- 100% natural
- Minimal risk of rejection or infection
- Rich in regenerative cells
- Reparative characteristics help develop a natural healing environment
- Provide support and cushioning to injured or damaged tissue

# MiniTC® in Use

- 1** Your doctor removes fat from your belly or other location
- 2** Your fat is purified, microfragmented, and processed by MiniTC
- 3** Your processed microfat is injected where you need it

// *Even after trying other therapies, I had painful arthritis in my ankles. Three weeks after microfat injections with MiniTC I am pain-free. Walking used to be difficult and now it's a joy. I'm so happy and grateful."*

Mr. B. Patel  
Boston, MA

// *My patients have had very nice outcomes with MiniTC and we're seeing significant benefit from both lifestyle and pain relief perspectives."*

Dr. Ariana DeMers, DO  
Orthopedic Surgeon  
Restore Orthopedics and Sports Medicine
